

Manah-7ca.

Apr. 14, 1878.

Dr Asa Gray.

Dear Sir.

I have
done up and forwarded by
mail a small parcel of
plants which desire your
opinion.

My collection of '78
is small - about 30 species
and not many specimens
I will do them up after
awhile in small mail sets
being supplementary to my larger
sets. Then I will send you
a set.

This will close my botany
in Florida expecting to go north in

a few months

The mail will leave
in a few minutes - and
I hurried to meet this
mail for we have but
two a week

Yours Very truly
A. P. Barber.
